

① As the CIA has demonstrated in  
the case of delegated procurement authority  
concerning procurement  
of ADP, ~~public laws~~ can be upheld  
~~through delegation and the agency mission~~  
the agency's mission can be ~~upheld~~  
~~in a timely manner~~  
supported, as well as upholding public laws  
concerning procurement. GBA has solicited  
this delegation on three occasions since granted  
in 1973 and complemented ~~and broadened~~  
CIA with ~~concerning~~ exercising this authority.  
~~in 1978~~ <sup>GBA</sup> broadened the authority. ~~to the~~  
is the direction we believe the NSPA study  
should recommend. [In my view, there is no  
evidence that this has or will lead to  
greater incidents of mismanagement or inefficiency  
or malfeasance]

(2)

In fact, CDT already has a documented track record of conducting its administrative functions within constraint with its legal authorities so reasonable allegations for ESDA should not be viewed as a risky venture at all.

Not good I quite  
like this, would  
bit before. See  
what you think
